THE MEN WHO WOULD BE KINGS

UNLIKE THE HEROES OF FANTASY, THESE MEN DON'T GAIN CLARITY FROM A DIVINE KNOWLEDGE OF AERONAUTICAL RITUALS. BUT WITH THEIR BRAVADO OF A HOSTILE WORLD, WE ARE IN SOME OF THE MOST ROBUST LET MARCHING TIMEPLACES.

NO SURPRISES

THE BULGARI OCTO CHRONOGRAPH PURGES OPULENCE OF OBLIVIOUSNESS.

By Andre Fink While Bulgari's greater time collection has defined many a complex watch like the Quattro Reali and the Fiumicino, the present Bulgari Octo Chronograph offers a simple yet elegant expression of luxury. Since 1987, which is considered another in this day and age of watchmaking. The ultra-water-resistant octopus is basically a robust chronograph with a general silhouette. Driven by the self-winding Calibre BVL 128, which comes in three of various sizes and is featured in a silver-tone case. As one would expect, the case of the watch is made of stainless steel. In the Bulgari Octo Chronograph case, one would expect a watch that presents a simple, unadorned design. Since its first release and after more than 10 years, there are no signs of wear and tear to the Bulgari Octo Chronograph, which is a testament to its quality and durability.

A CLOCKWORK ORANGE

OMEGA GARNERS IMMENSE PRAISE FOR AN OMEGA TO A CLASSIC, ALMOST WITH A ZESTY, ULTIMATE TWIST.

By Andre Fink A Speedmaster watch is often called the moon watch, but it is actually an analog watch that tracks the moon's position and tracks a day's worth of time. It is a classic watch that has been around since the 1950s, and it is still one of the most popular watches in the world. The Omega Speedmaster is a classic watch that has been around since the 1950s, and it is still one of the most popular watches in the world. TWO IF BY SEA (BISCUIT)

*BREGUET'S MARINE ROYALE TIMEPIECE
ABLY SERVES DUAL PURPOSE FOR LAND-
LOCKED SEABISCUIT-RIDING ESCAPADES
OR MARITIME ADVENTURES.*

By Jonathan Ho I can attest from personal experience that there's no greater pleasure than to feel the breeze rush against your face either accompanied with a little salty spray or by virtue of extreme torque from rapid acceleration, even if boats horsepower is one. Perhaps similarly, Breguet finds equal pleasure in decorating every inch of what is meant to be a timepiece of simple utility because it shows.

The massive 30K rose gold timepiece with sporty rubber strap is built like an indestructible tool watch but decorated in the same vein as a classic Breguet dress watch. Endorsed Breguet dating can be found on the midcase and the solidly constructed bezel. The water from between the rotating crown at 3 and alarm setting crown at 4, serves to secure the date time indicator in place while the alarm switch is located at 6 to consider wave slope. I mention this because while the watch isn't exactly waterproof (water resists at 45m), it appears that way thanks to the crown and push pieces on the flange as the case follows the piece with consistent 50M pressure.

The rubberized dial features traditional Breguet-style tone engine with 'pallucci' patterns which add elegant charm to what is meant to be purely a functional tool watch (read for 300 extra dials) and the ability to alert you to whatever time you have seen fit to set.

Yet, even with no shortage of useful details, it is the automatic Breguet caliber 519 Q, which captures me. The sapphire crystal caseback shows an exquisitely decorated rotor and a rotor case plate planarizing with paragon, never have I seen a more beautiful movement in a dive's watch.
